

**The Bluffers Park
again !!**

2016 Apr 30

Last week, the bluffs were against the setting sun.....
I couldn't get good shots of them

This week, I went again.....earlier....
to capture the cliffs again

They don't
look like cliffs,
do they?

I dwarfed them

Where the bluffs meet the lake

The daredevils above

The beach goes below

Not only did I capture the scenery....

I also took shots of this little white friend

He (or she?)
posed for
people

A wide-angle photograph of a dirt trail leading towards a bluff. The trail is light-colored and shows tire tracks. It is flanked by tall, dry grass and some bare trees. In the background, a large, light-colored bluff rises against a clear blue sky. A few people are visible on the trail in the distance.

The trail out to the footskirt of the bluffs

The picnic table of last week....but this time the view is towards the lake

I was lucky to have fine weather

It was another
great day

Thanks for coming
