

Scarborough Bluffs

2016 Apr 23

Another balmy Saturday 2016 April 23

After my morning 10,000 steps on the East Don Parkland trail...

.....drove down to the Scarborough Bluffs

.....visited two parks there

....the Scarborough Bluffs Park and

....the Bluffer's Park

Supposed to go with a group of friends

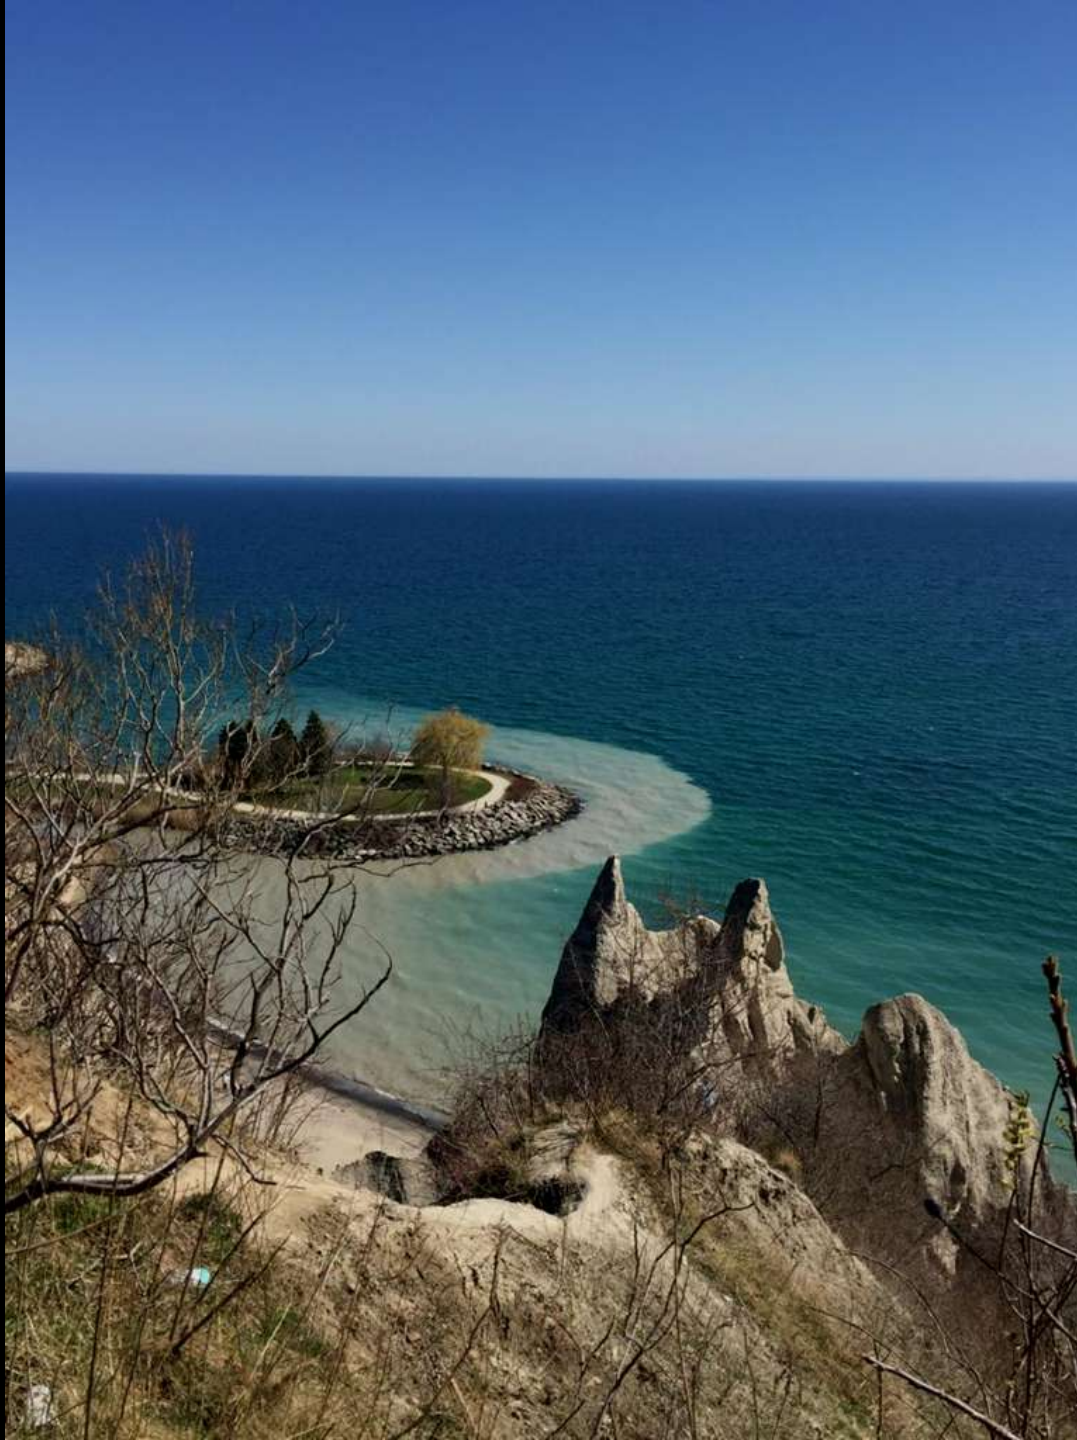

.....but changed my mind and

.....changed my mind again.....ending up there

As a bonus, happened to see the Church designated as the Holy Door Church in Toronto for this liturgical year.....timing was right....attended the Sunday Vigil Mass there

.....also saw a man flying the DJI Professional drone, my next play toy

15,000 steps A happy day

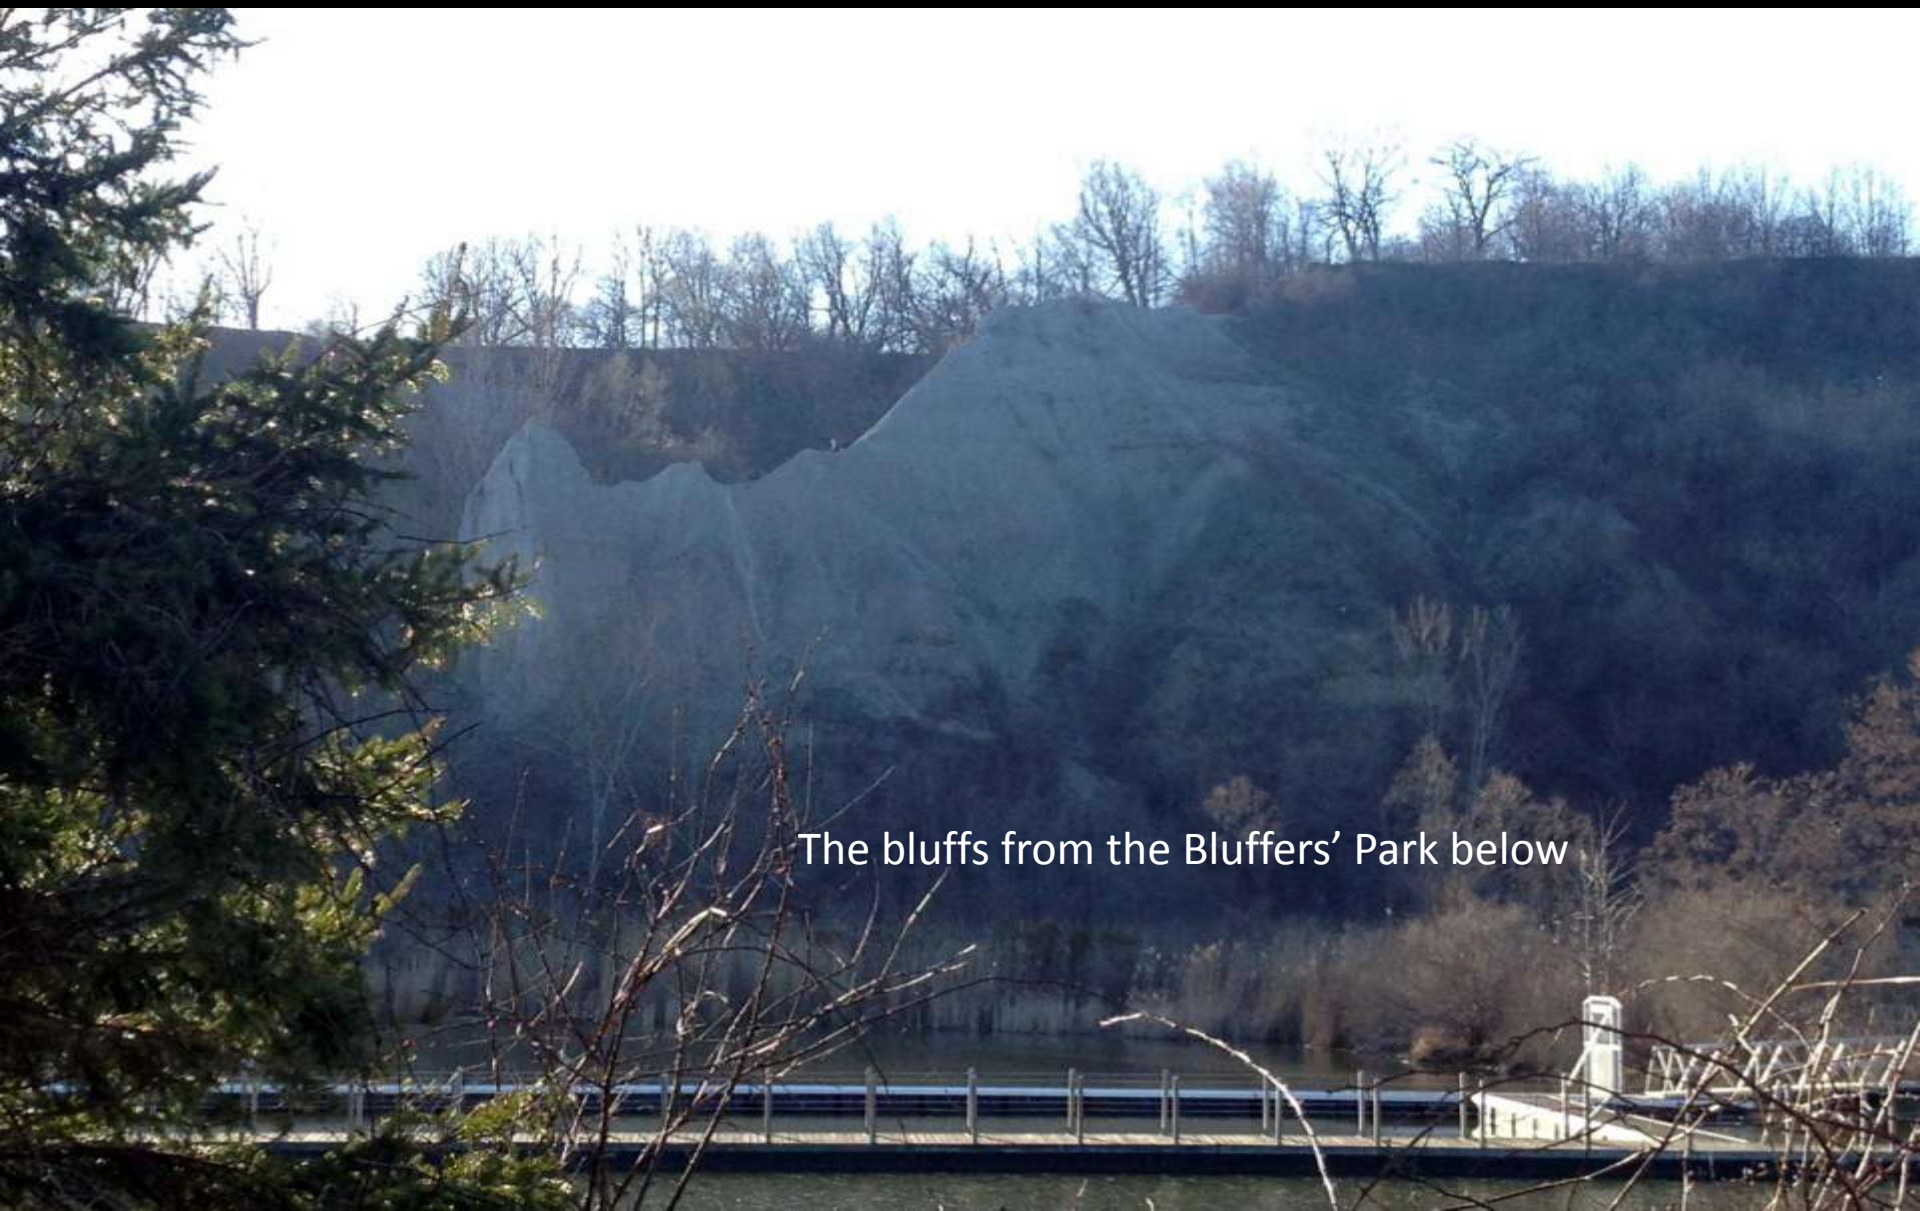

Looking down
to

The Bluffers' Park

from

The Scarborough
Bluffs Park

The bluffs from the Bluffers' Park below

A steep and unstable cliff

Flowers are laid behind the
tree to remember those
fell and died

Nonetheless people are
still standing at the edge of
the cliff

There were
others who
slid and
treaded
down

For me,
I simply
enjoyed
taking
pictures
at
various
points

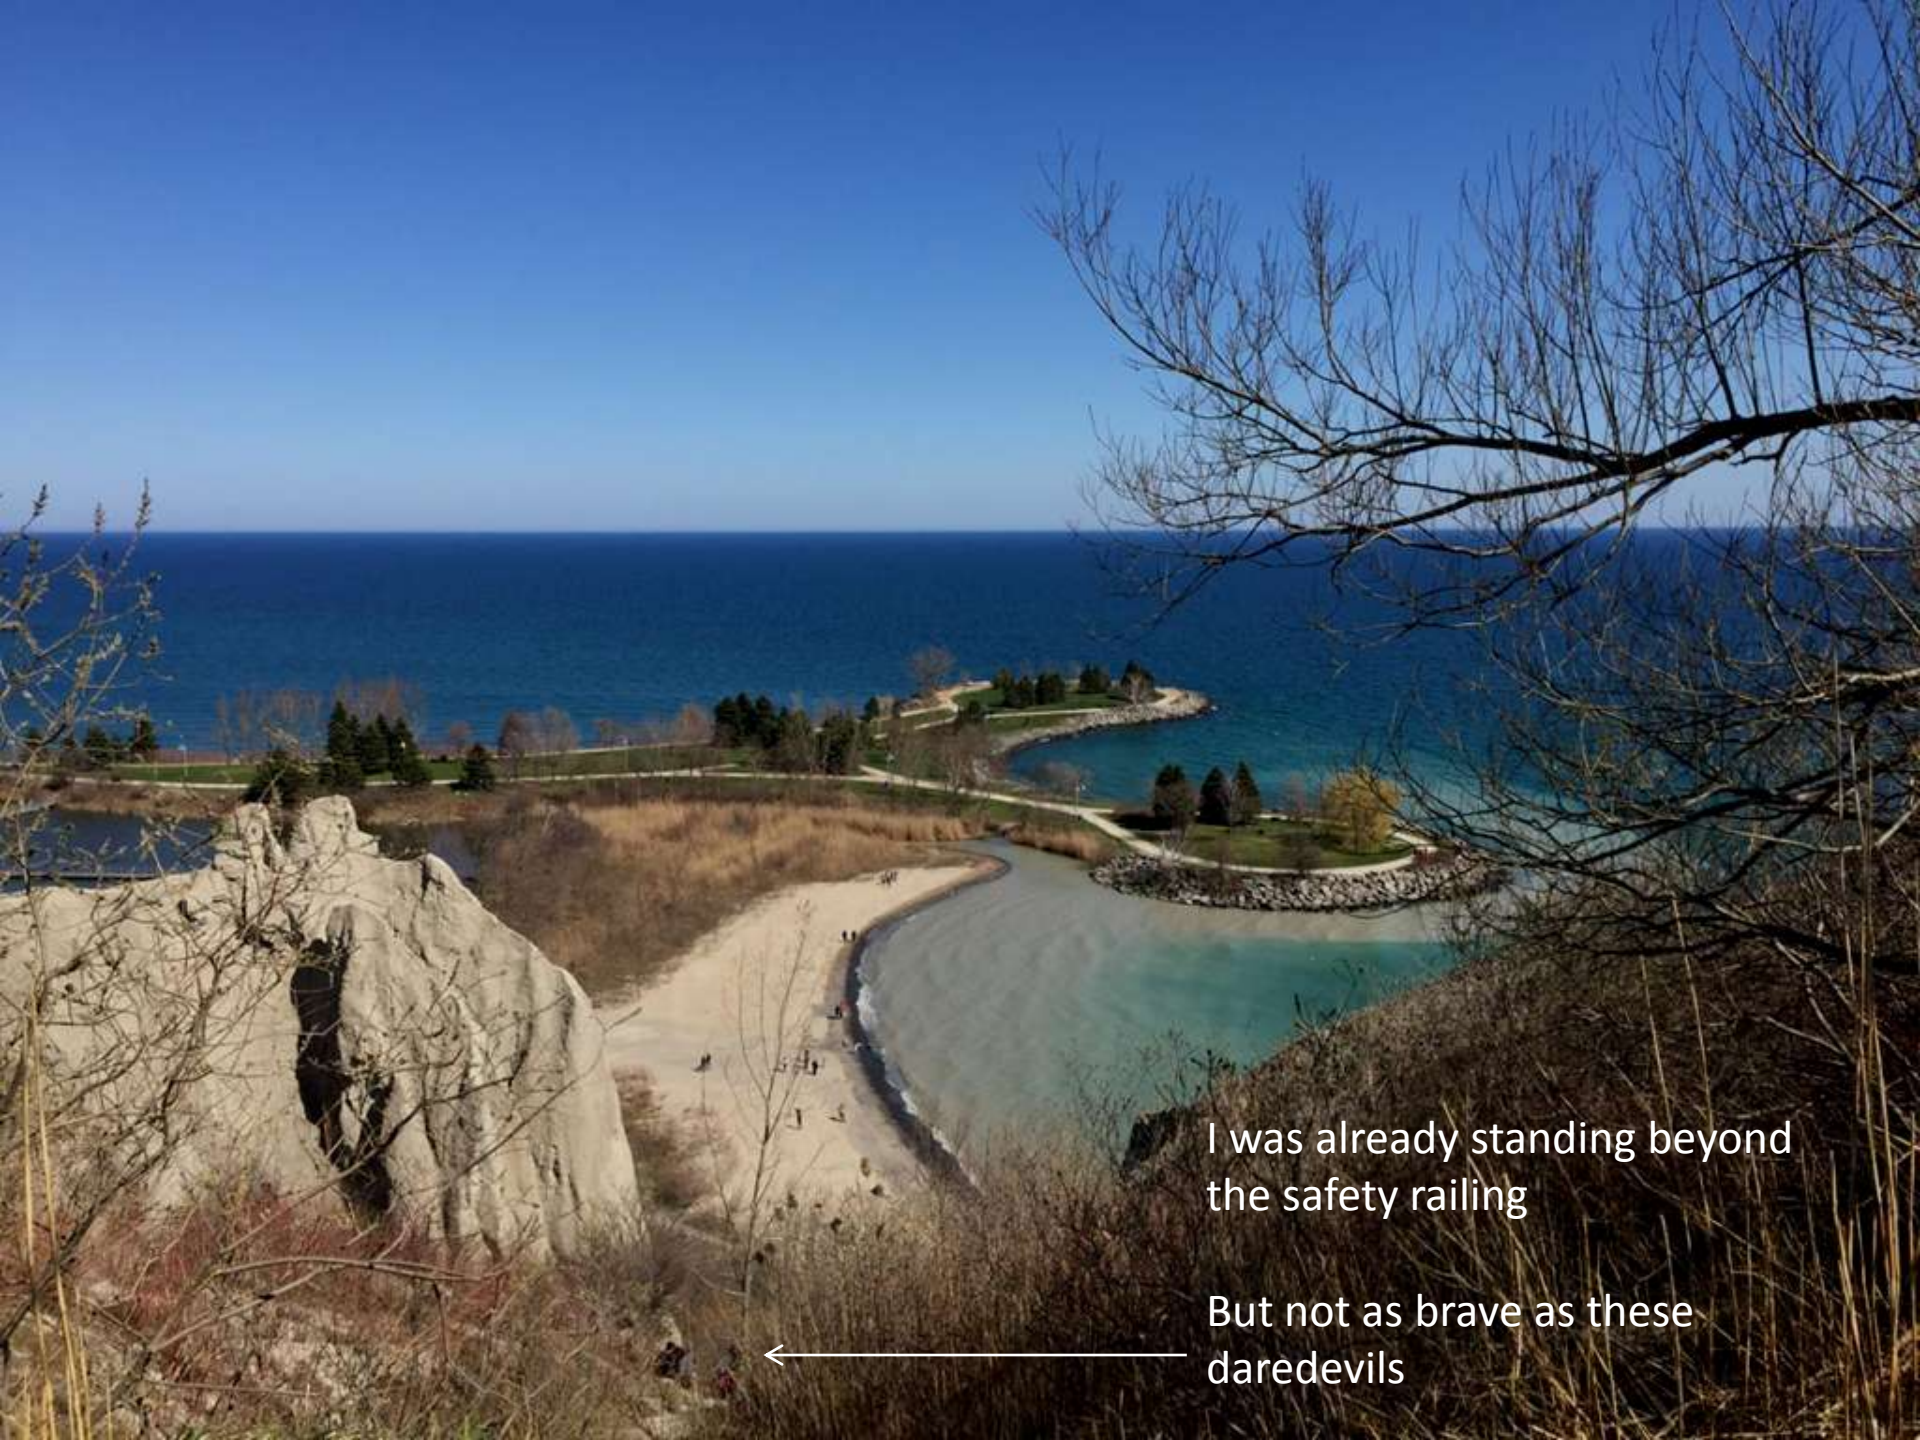

...from different angles

...panoramic

...or banal

I was already standing beyond
the safety railing

But not as brave as these
daredevils

There is a marina at the far end of the Bluffers' Park below

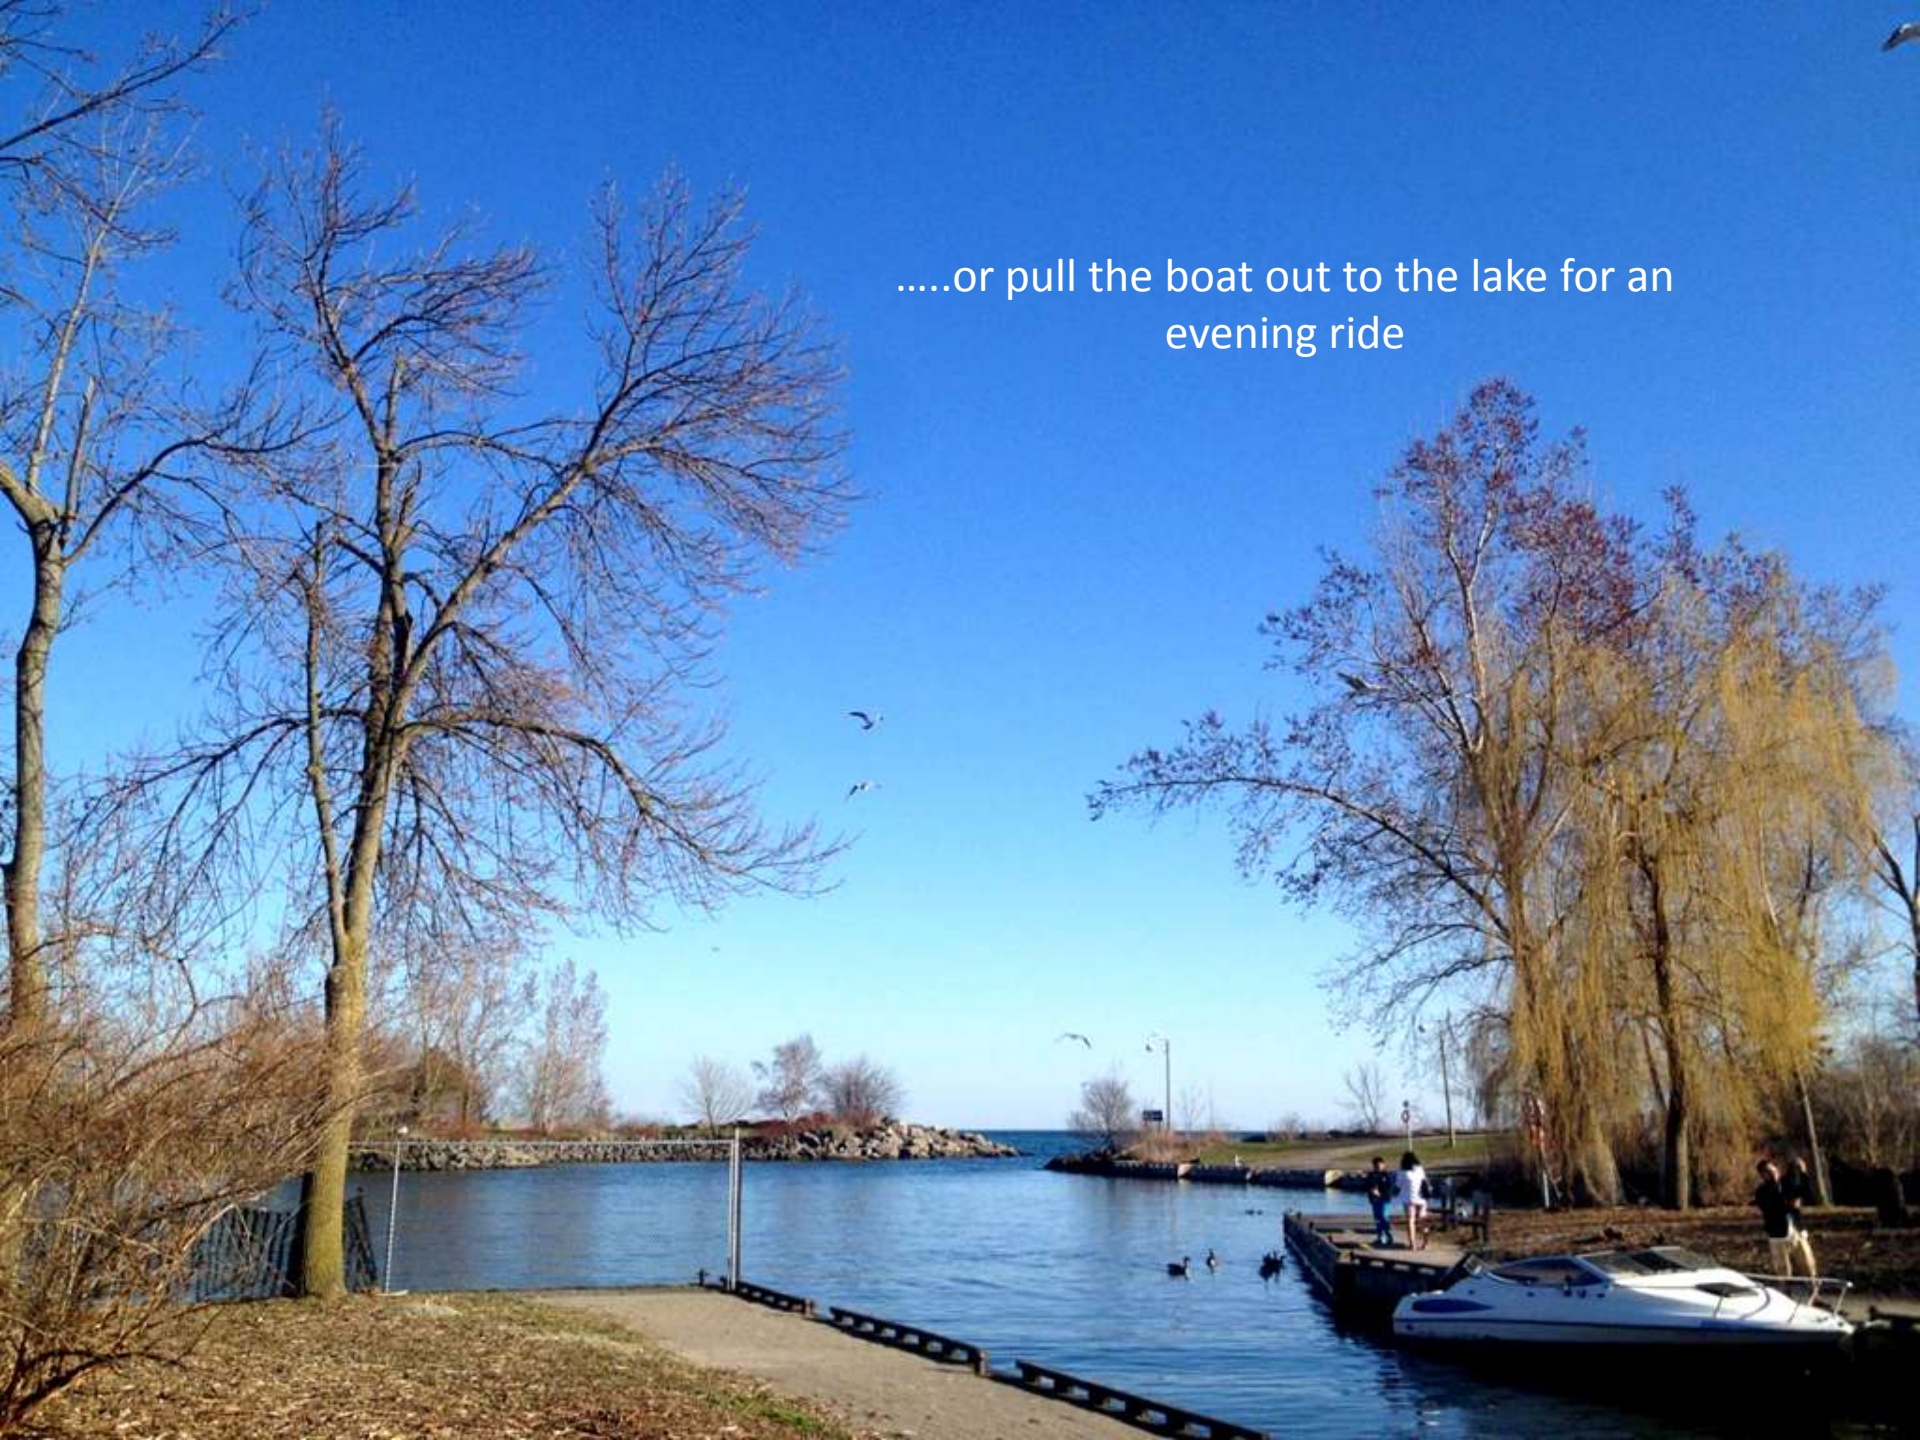

Down at The Bluffers' Park

A balmy day to laze by the lake (Lake Ontario)

.....or pull the boat out to the lake for an evening ride

....or, soak in the sun while catching up with friends and
enjoying the bluffs

6:50 p.m. time to head home

Thank you for coming to the Scarborough Bluffs with me

Oh....

....forgot to show you “my “drone !
